[Click Here to Challenge Question No.: 9](#)

Q.No: 9 Read the following statement carefully and identify the conclusion that follows.

Statement: No student of Class X failed the science exam this year.

Conclusions:

I. The science exam was very easy.

II. All students of Class X passed science.

निम्नलिखित कथन को ध्यानपूर्वक पढ़ें और निष्कर्ष निकालें।

कथन: इस वर्ष दसवीं कक्षा का कोई भी छात्र विज्ञान की परीक्षा में अनुत्तीर्ण नहीं हुआ।

निष्कर्ष:

I. विज्ञान की परीक्षा बहुत आसान थी।

II. पराची कक्षा के सभी छात्र विज्ञान में उत्तीर्ण हुए।

Only Conclusion I follows

केवल निष्कर्ष I अनुसरण करता है।

Only Conclusion II follows

केवल निष्कर्ष II अनुसरण करता है।

Both I and II follow

I और II दोनों अनुसरण करते हैं।

Neither I nor II follows

न तो I और न ही II अनुसरण करता है।

[Click Here to Challenge Question No.: 10](#)

Q.No: 10 Instruction: Identify the assumptions that must hold for the statement to be valid, then choose the correct option.

Statement: Although recent advancements in quantum computing have significantly improved processing speeds, the stability of quantum states remains a critical barrier to developing large-scale quantum computers for practical applications.

Assumptions:

I. Quantum computing holds the potential for faster data processing than classical computing.

II. Quantum states are inherently unstable, making large-scale quantum computing unfeasible.

III. Recent advancements in quantum computing have resolved the issue of quantum state stability.

निर्देश: कथन के वैध होने के लिए आवश्यक मान्यताओं की पहचान करें, फिर सही विकल्प चुनें।

कथन: हालीके क्वांटम कंप्यूटिंग में हाल ही में बड़े प्रगति में प्रसंकरण गति में अलोकनीय सुधार किया है, लेकिन क्वांटम अवस्थाओं की स्थिरता व्यावहारिक अनुप्रयोगों के लिए बड़े पैमाने पर क्वांटम कंप्यूटर विकसित करने में एक महत्वपूर्ण बाधा बनी हुई है।

मान्यताएं:

I. क्वांटम कंप्यूटिंग में शास्त्रीय कंप्यूटिंग की तुलना में तेज डेटा प्रोसेसिंग की क्षमता है।

II. क्वांटम अवस्थाएँ स्वाभाविक रूप से अस्थिर होती हैं, जिससे बड़े पैमाने पर क्वांटम कंप्यूटिंग व्यावहारिक हो जाती है।

III. क्वांटम कंप्यूटिंग में हाल ही में बड़े प्रगति ने क्वांटम अवस्था स्थिरता के मुद्दे को हल कर दिया है।

Only I and II are implicit

केवल I और II निहित हैं।

Only II and III are implicit

केवल II और III अर्थात् निहित हैं।

Only I is implicit

केवल I निहित है।

All I, II, and III are implicit

सभी I, II और III निहित हैं।

PART-C (Quantitative Aptitude)

Q.No: 51 Suppose $x = \sqrt{2} + \sqrt{3}$, $y = \sqrt{5} + \sqrt{1}$, and $z = 2\sqrt{2} - 1$; then which of the following is true?

[Click Here to Challenge Question No : 51](#)

मान लीजिए $x = \sqrt{2} + \sqrt{3}$, $y = \sqrt{5} + \sqrt{1}$, और $z = 2\sqrt{2} - 1$; तो निम्न में से कौन सा सत्य है?

☒ $x < y < z$

☐ $x < y < z$

☐ $x < y < z$

☐ $y < x < z$

☐ $y < x < z$

☐ $y < x < z$

☐ $x < z < y$

☐ $x < z < y$

Q.No: 52 the budget for a construction project is allocated to land acquisition, building materials, and labor in the ratio 5 : 3 : 2. During the project, the cost of land acquisition rose by 5%, building materials rose by 10%, and labor fell by 20%. What is the percent change (increase or decrease) in the total project cost?

[Click Here to Challenge Question No : 52](#)

एक निर्माण परियोजना के लिए बजट भूमि अधिग्रहण, निर्माण सामग्री और श्रम के लिए 5 : 3 : 2 के अनुपात में आवंटित किया जाता है। परियोजना के दौरान, भूमि अधिग्रहण की लागत 5% बढ़ गई, निर्माण सामग्री में 10% की वृद्धि हुई और श्रम में 20% की गिरावट आई। कुल परियोजना लागत में प्रतिशत परिवर्तन (वृद्धि या कमी) क्या है?

☐ 1.0 % increase

☐ 1.0 % वृद्धि

☐ 1.5 % decrease

☐ 1.5 % कमी

☒ 1.5 % increase

☐ 1.5 % वृद्धि

☐ 2.0 % decrease

☐ 2.0 % कमी

Q.No: 53 Evaluate: $6 \left[\frac{2}{3} : \left\{ \frac{1}{6} - \left(\frac{1}{2} \times \left(1 - \frac{1}{3} \right) \right) \right\} \right]$

Q.No: 90 Read the following passage and answer the questions based on the passage:

For seventeen-year-old Meera, adolescence was not merely a phase of hormonal transitions and academic aspirations—it became an arena where perception and self-worth collided with insidious intensity. In a world saturated with curated digital aesthetics and algorithm-driven beauty hierarchies, Meera's own reflection began to feel less like truth and more like betrayal. Every scroll through her social media feed deepened a gnawing dissonance between her authentic self and the impossible silhouettes idolized online. This wasn't mere teenage insecurity—it manifested as a systematic devaluation of her physical self. Gradually, she adopted punitive behaviors: food became conditional, mirrors became adversaries, and compliments transformed into cryptic reminders of inadequacy. The subtle descent into dysmorphia was neither loud nor linear. Academically capable and socially pleasant, Meera wore the mask of normalcy with precision. Yet beneath the predilect smiles was a quiet implosion. She began withdrawing emotionally, rationalizing her distress as shyness, and internalizing her worth. The turning point came not with drama, but with silence—a refusal to eat for days, which led to medical intervention. Therapeutic engagement introduced her to the concept of self-image distortion, and the emotional scaffolding required to rebuild her fractured sense of identity. Through sustained counseling, Meera disentangled societal impositions from intrinsic value. She began to internalize that beauty is not a monolith dictated by culture but a spectrum shaped by diversity, health, and self-compassion. Meera's narrative is not a singular anomaly but a mirror to a larger epidemic—where teenagers battle unspoken wars behind flawless digital legacies. Combating this requires more than awareness; it calls for critical media literacy, empathetic environments, and systemic redefinition of beauty norms that extend beyond superficial metrics.

Every scroll through her social media feed deepened a gnawing dissonance: between her authentic self and the impossible silhouettes idolized online. This wasn't mere teenage insecurity—it manifested as a systematic devaluation of her physical self. Gradually, she adopted punitive behaviors: food became conditional, mirrors became adversaries, and compliments transformed into cryptic reminders of inadequacy. The subtle descent into dysmorphia was neither loud nor linear. Academically capable and socially pleasant, Meera wore the mask of conformity with precision. Yet beneath the polished smiles was a quiet implosion. She began withdrawing emotionally, redefining her distress as vanity, and internalizing her worth. The turning point came not with drama, but with silence—a refusal to eat for days, which led to medical intervention. Therapeutic engagement introduced her to the concept of self-image distortion, and the emotional scaffolding required to rebuild her fractured sense of identity. Through sustained counseling, Meera disentangled societal impositions from intrinsic value. She began to internalize that beauty is not a monolith dictated by culture but a spectrum shaped by diversity, health, and self-compassion. Meera's narrative is not a singular anomaly but a mirror to a larger epidemic—where teenagers battle insecurities behind flawless digital facades. Combating this requires more than awareness; it calls for critical media literacy, empathetic environments, and systemic redefinition of beauty norms that extend beyond superficial metrics.

What is the tone of the author in the end of the paragraph?

Dismissive and ironic

Reflective and critical

Optimistic and celebratory

Detached and neutral
